Clallam Transit Announces Summer 2017 Service Changes

Clallam Transit System (CTS) is excited to announce its much anticipated Summer 2017 service changes. The Strait Shot, Clallam Transit's newest route, will begin daily service between Port Angeles and Bainbridge Island Ferry Terminal. With just five intermediate stops along the 75-mile route, The Strait Shot (CTS Route 123) will provide the first-ever direct public transportation connection between Clallam County and the Bainbridge ferry to Seattle. The Strait Shot will have one morning and one evening roundtrip Monday through Saturday, with a single afternoon roundtrip on Sunday. Regular fares for the route will be \$10 each way, with \$5 discounted fares available for children, CTS monthly and student pass holders, and passengers displaying a valid Regional Reduced Fare Permit (RRFP) ID card. Service begins on Saturday, June 17, 2017, with The Strait Shot's inaugural trip departing Gateway Transit Center in Port Angeles at 7:25 a.m. Specific schedule information is available at www.clallamtransit.com. Passengers can also plan their transit trips to, from, and within Clallam County using Google Maps.

Additional changes taking effect on June 17, 2017, include:

- **Minor schedule adjustments on Route 14** between Forks and Port Angeles to allow morning connections with Route 123 and more accurately reflect travel times.
- **Restoration of weekday service on Route 15** between Forks Transit Center and La Push.
- **Minor schedule adjustments on Routes 24 and 26** to more accurately reflect travel times.

New green-colored transit schedules are now available onboard all CTS buses, at businesses and public agencies throughout Clallam County, and for download at www.clallamtransit.com.

For additional information, call Clallam Transit System at (360) 452-4511 or (800) 858-3747 or visit www.clallamtransit.com.
